## Work Experience

### Full Stack Developer

Jan 2023 - Apr 2024

Nurse-I-1

- Engineered a client dashboard facilitating seamless communication between nurses and patients, resulting in over 28,000 patient consults.
- Developed a dynamic decision-tree editor empowering clients to craft custom chat flows for patient information collection prior to nurse consultations.
- Designed and implemented CRM features, including a robust filter, search, and sorting system, enabling clients to glean insights and track patient data trends effectively.
- Stack: Angular, Typescript, Javascript, HTML, CSS, Bootstrap

### Full Stack Developer

Feb 2021 - Nov 2022

Nuvu Studios

- Spearheaded web development initiatives for an innovative Education company, contributing to the creation of an in-house portfolio-based website for comprehensive student project documentation.
- Collaborated with stakeholders to gather requirements and incorporated feedback from clients, students, and partners to tailor the website to specific user needs.
- Managed diverse responsibilities encompassing website design, development, and continuous improvement efforts, including feature enhancements, bug fixes, and updates.
- Stack: Javascript, Ruby, Stimulus, HTML, CSS, JQuery, Tailwind

### Oracle Discord Bot

May 2020 - Mar 2023

[bit.ly/DiscordEloBot](https://bit.ly/DiscordEloBot)

- Identified and rectified deficiencies in an existing “ratings” tracking chatbot utilized on Magic the Gathering Discord Servers.
- Developed an agile and user-centric bot aimed at optimizing user experience, acquiring expertise in Node.js, MongoDB, and Discord.js for an open-source project initiative.
- Iterated on initial release to align with updated Discord.js practices, delivering a second version for enhanced functionality and performance.

### Web Developer (Contract Role)

Nov 2020 - Feb 2021

Solar United Neighbors

- Collaborated closely with clients to revamp and create content for an outdated website, streamlining its structure into a more cohesive and modernized format.
- Applied expertise in HTML, CSS, JavaScript, and WordPress to refactor and rebuild website, improving overall user experience and engagement.
